When using electrical appliances, basic safety precautions should always be followed. Do not use The Power AirFryer Oven 360™ until you have read this manual thoroughly.
Congratulations

BEFORE YOU BEGIN

The Power AirFryer Oven 360™ will provide you many years of delicious family meals and memories around the dinner table. But before you begin, it’s very important that you read this entire manual, making certain that you are totally familiar with this appliance’s operation and precautions.

Until now, getting the crispy, fried crunch and flavor you and your family love was impossible without deep frying in fat or oil. The Power AirFryer Oven 360 has changed everything. Replace messy, unhealthy oil with Turbo Cyclonic Air that surrounds your food, cooking it to crispy and juicy perfection.

The Power AirFryer Oven 360 not only cooks your favorite fried foods but also broils and bakes many other favorites, like air-fried French fries, calzones, and doughnuts. Twelve one-touch presets automatically set the ideal cooking time and temperature for your favorites, like crispy shrimp, fries, and chicken. Plus, there’s even a Rotisserie preset that cooks your chicken to perfection in less time than your home oven and a Dehydrator preset that preserves fresh fruits and other food for future use. With the Power AirFryer Oven 360, you and your family will enjoy many years of great-tasting food and snacks.

IMPORTANT SAFEGUARDS

WARNING

PREVENT INJURIES! – CAREFULLY READ ALL INSTRUCTIONS BEFORE USE!

When using electrical appliances, always follow these basic safety precautions.

1. Read all instructions carefully to prevent injuries.
2. This appliance is NOT INTENDED for use by persons with reduced physical, sensory, or mental capabilities or a lack of experience and knowledge unless they are under the supervision of a responsible person or have been given proper instruction in using the appliance. DO NOT leave unattended with children or pets. KEEP this appliance and cord away from children. Anyone who has not fully read and understood all operating and safety instructions contained in this manual is not qualified to operate or clean this appliance.
3. ALWAYS place the Unit on a flat, heat-resistant surface. Intended for countertop use only. DO NOT operate on unstable surface. DO NOT place on or near a hot gas or electric burner or in a heated oven. DO NOT operate the Unit in an enclosed space or under hanging cabinets. Proper space and ventilation is needed to prevent property damage that may be caused by steam released during operation. Never operate the Unit near any flammable materials, such as dish towels, paper towels, curtains, or paper plates. DO NOT let the cord hang over the edge of the table or counter or touch hot surfaces.
4. CAUTION HOT SURFACES: This appliance generates extreme heat and steam during use. Proper precautions must be taken to prevent the risk of personal injury, fires, and damage to property.
5. DO NOT use this appliance for anything other than its intended use.
6. WARNING: To reduce risk of electric shock, cook only using the removable containers (trays, skewers) provided.
7. The use of accessory attachments NOT RECOMMENDED by the appliance manufacturer may cause injuries.
8. NEVER use outlet below counter.
9. NEVER use with an extension cord.
10. DO NOT use Unit outdoors.
11. DO NOT operate if the cord or plug are damaged. If the appliance begins to malfunction during use, immediately unplug the cord from the power source. DO NOT USE OR ATTEMPT TO REPAIR A MALFUNCTIONING APPLIANCE. Contact Customer Service for assistance (see the back of the manual for contact information).
12. UNPLUG the Unit from the outlet when not in use and before cleaning. Allow the Unit to cool before attaching or removing parts.
13. NEVER immerse housing in water. If the Unit falls or accidentally becomes immersed in water, unplug from wall outlet immediately. Do not reach into liquid if the Unit is plugged in and immersed. Do not immerse or rinse cords or plugs in water or other liquids.
14. The Unit’s outer surfaces may become hot during use. Wear oven mitts when handling hot surfaces and components.
15. When cooking, DO NOT place the appliance against a wall or against other appliances. Leave at least 5 in. free space on the back and sides and above the appliance. DO NOT place anything on top of the appliance.
16. DO NOT place the Unit on stove top surfaces.
17. This appliance is intended for normal household use only. It is NOT INTENDED for use in commercial or retail environments. If the Power AirFryer Oven 360 is used improperly or for professional or semiprofessional purposes or if it is not used according to the instructions in the user manual, the warranty becomes invalid and the manufacturer will not be held liable for damages.
18. ALWAYS unplug the appliance after use.
19. EXTREME CAUTION must be used when moving an appliance containing hot oil or other hot liquids.
20. USE EXTREME CAUTION when removing tray or disposing of hot grease.
21. DO NOT clean with metal scouring pads. Pieces can break off the pad and touch electrical parts, creating a risk of electric shock. Use non-metallic scrub pads.
22. Oversize foods or metal utensils MUST NOT be inserted in a toaster-oven as they may create a fire or risk of electric shock.
23. EXTREME CAUTION should be exercised when using containers constructed of material other than metal or glass.
IMPORTANT SAFEGUARDS

24. **DO NOT** store any materials, other than manufacturers recommended accessories, in this oven when not in use.

25. **DO NOT** place any of the following materials in the oven: paper, cardboard, plastic.

26. **DO NOT** cover crumb tray or any part of the oven with metal foil. This will cause overheating of the oven.

SAVE THESE INSTRUCTIONS – FOR HOUSEHOLD USE ONLY

⚠️ Warning

- **NEVER** put anything on top of the appliance.
- **NEVER** cover the air vents on the top, back, and side of the cooking Unit.
- **NEVER** use the Oven Door as a place to rest any racks filled with food. The racks could damage the Oven Door or cause the Unit to tip over. Personal injury could result.
- **ALWAYS** use oven mitts when removing anything hot from the Unit.

⚠️ CAUTION: Attaching the Power Cord

- Plug the power cord into a 2-prong wall outlet with no other appliances on the same outlet. Plugging other appliances into the outlet will cause the circuit to overload.
- **Do not use an extension cord with this product.**
- **This model is designed for use with a 2-prong grounded 120V dedicated electrical outlet only. Do not use with any other electrical outlet or modify the plug.**
- **To disconnect, turn any control to off and then remove the plug from the wall.**

Electric Power

If the electrical circuit is overloaded with other appliances, your new Unit may not operate properly. It should be operated on a dedicated electrical circuit.

Important

- Before initial use and after subsequent use, hand wash the cooking accessories. Then, wipe the outside and inside of the Unit with a warm, moist cloth and mild detergent. Finally, preheat the **Power AirFryer Oven 360** for a few minutes to burn off any residue.
- **CAUTION:** Upon first use, the Unit may smoke or emit a burning odor due to oils used to coat and preserve the heating elements.
- **The Power AirFryer Oven 360** must be operated with the Drip Tray in place and cleaned of excess food.
- Never operate your **Power AirFryer Oven 360** with the oven door open.
- Never put the Baking Pan (or any other accessory) directly on the top of the lower heating elements.
Parts & Accessories

1. Main Unit
2. Door Handle
3. LCD Display
4. Glass Door
5. Control Panel
6. Crisper Tray
7. Oven/Pizza Rack
8. Baking Pan (Optional)
9. Drip Tray
10. Rotisserie Spit
Parts & Accessories

1. MAIN UNIT: Features sturdy stainless steel construction throughout. Cleans easily with a damp sponge or cloth and a mild detergent. Avoid harsh, abrasive cleaners. NEVER submerge this Unit in water or liquids of any kind.

2. DOOR HANDLE: Remains cool during cooking. Always use the handle and avoid touching the Glass Door. The Door may become very hot during the cooking process and can cause injury.

3. LCD DISPLAY: Used for selecting, adjusting programming, or monitoring cooking programs.
   - Illuminated BLUE when in selection or standby mode.
   - Illuminated ORANGE indicates when program is actively operating.

4. GLASS DOOR: Sturdy, durable tempered glass keeps heat in and helps assure even heat distribution to food. NEVER cook with this door in the open position.

5. CONTROL PANEL: Contains the Control Buttons and Knobs (see The Control Panel, p. 10).

6. CRISPER TRAY: Use for cooking oil-free fried foods and broiling.

7. OVEN/PIZZA RACK: Use for toasting breads, bagels, and pizzas; baking; grilling; and roasting.

8. BAKING PAN (OPTIONAL): Use for baking and reheating various foods. Deeper oven-safe pans and dishes may be used in the Power AirFryer Oven 360.

   CAUTION: When baking or cooking with your own baking pans and dishes, always place them on an oven rack. Never cook anything directly on the heating elements.

9. DRIP TRAY: Place in the bottom of the Unit just below the heating elements. Never use this Unit without the Drip Tray.

10. ROTISSERIE SPIT: Used for cooking whole chickens and roasts of all types.

   Warning
   The rotisserie parts and other metal components of this Unit are sharp and will get extremely hot during use. Great care should be taken to avoid personal injury. Wear protective oven mitts or gloves.

USING THE OVEN/PIZZA RACK

1. Insert the Drip Tray below the bottom heating elements (at the very bottom of the Unit [see Fig. i]).
2. Use the markings on the door to choose the shelf position recommend for your recipe. Place food on the Oven/Pizza Rack and insert the Rack into the desired slot (see Fig. ii).

USING THE BAKING PAN

1. Insert the Drip Tray below the bottom heating elements (at the very bottom of the Unit [see Fig. i]).
2. Use the markings on the door to choose the shelf position recommend for your recipe. Place food on the Oven/Pizza Rack and insert the Rack into the desired slot (see Fig. ii).
3. Place food on the Baking Pan and insert the Baking Pan onto the Oven/Pizza Rack (see Fig. iii).
Using the Accessories

**USING THE CRISPER TRAY**

1. Insert the Drip Tray below the bottom heating elements (at the very bottom of the Unit [see Fig. i]).

2. Use the markings on the door to choose the shelf position recommend for your recipe. Place food on the Crisper Tray and insert the Tray into the desired slot (see Fig. iv).

**USING THE ROTISSERIE SPIT**

1. With the Forks removed, force the Rotisserie Spit through the center of the food lengthwise. **NOTE:** To support the food on the Rotisserie Spit better, insert the Rotisserie Forks into the food at different angles (see Fig. v).

2. Slide the Forks (A) onto each side of the Spit and secure them in place by tightening the two Set Screws (B).

3. Hold the assembled Rotisserie Spit at a slight angle with the right side higher than the left side and insert the left side of the Spit into the Rotisserie connection inside the Unit (see Fig. vi).

4. With the left side securely in place, lower the right side of the Spit into the Rotisserie connection on the right side of the Unit (see Fig. vii).

5. To remove cooked food, insert a large fork into the food, twist left, and raise to remove the Spit from the left slot and then remove the food from Unit with slight lifting motion. Transfer the food to a carving board or serving plate.
The Control Panel

A. TEMPERATURE/DARKNESS CONTROL KNOB: Allows you to override preset temperatures. Also controls the desired darkness during Toast or Bagel Mode. Temperature can be adjusted at any time during the cooking cycle.

B. TIME/SLICES CONTROL KNOB: Allows you to override preset times. Also controls the setting to select the number of slices being toasted during Toast or Bagel Mode. Time can be adjusted at any time during the cooking cycle.

C. PROGRAM SELECTION KNOB: Use to scroll through choices when selecting a preset mode.

D. AIR FRY BUTTON: Air-Fry style cooking with the push of a button for all your oil-free fried snacks and main dishes. Fan can be activated by pressing this button for the following the presets: AirFry, Pizza, Bake, Rotisserie, Slow Cook, Roast, Dehydrate, and Reheat.

E. LIGHT BUTTON: May be selected at any time during the cooking process to light oven interior.

F. FAHRENHEIT/CELSIUS BUTTON: You may choose your preferred method to measure cooking temperature.

G. CANCEL BUTTON: You may select this button at any time to cancel the cooking process. Hold the Cancel Button for 3 secs. to power off the Unit (The LCD Panel will read "OFF").

H. START/PAUSE BUTTON: Press to begin or pause the cooking process at any time.

LCD Panel

- AirFry Fan Indicator: Indicates when AirFry Fan is on.
- Preheat Indicator: Blinks until temperature is achieved.
- Heating Element Indicator: Indicates which elements are active.
- Toast/Bagel Darkness Indicator: Indicates the level of lightness or darkness for toast or bagel.

</thead>
</table>
| AirFry | High-speed convection cooking used to replace deep frying. Great for cooking breaded items using super-heated air with little to no oil. | • Heats from the top, bottom, and side heating elements.  
• Uses the Crisper Tray in Position 4.  
• The Air Frying Fans are always on. |
| Toast | Used to brown and crisp bread on both sides. Great for sliced loaves or English muffins. | • Heats from the top and bottom heating elements.  
• Uses the Oven/Pizza Rack in Position 2  
• Select the darkness of the toast on a scale of 1–5. Select the amount of toast with Time/Slices Control Knob. Toasts 1–6 slices of loaf bread at once.  
• The Air Frying Fans are not used. |
| Bagel | Used to brown and crisp thicker bread on both sides. Great for toasting bagels, rolls, and frozen waffles. | • Heats from the top and bottom heating elements.  
• Uses the Oven/Pizza Rack in Position 2.  
• Select the darkness of the toast on a scale of 1–5. Select the amount of toast with Time/Slices Control Knob. Toasts 1–6 slices at once.  
• The Air Frying Fans are not used. |
| Pizza | Perfect for cooking homemade or frozen pizza. Crisps the dough while melting the cheese from the top. | • Heats from the top and bottom heating elements.  
• Uses the Oven/Pizza Rack in Position 5.  
• The Air Frying Fans can be turned on. |
| Bake  | Cook perfect pastries with convection cooking. Cook cakes, pies, cookies, or any other baked goods. | • Heats from the top and bottom heating elements.  
• Uses the Oven/Pizza Rack in Position 5. You can also add a baking tray (muffin tray, loaf pan) if desired.  
• The Air Frying Fans can be turned off. |
| Broil | Melts cheese on burgers or cooked items, sears small cuts of meat, and cooks open-faced sandwiches. | • Heats from the top heating element.  
• Uses the Oven/Pizza Rack and/or the Baking Pan in Positions 1 and 2 (the Rack/Pan should be close to the top heating element for best results).  
• The Air Frying Fans are not used. |

</thead>
</table>
| **Rotisserie** | Heats food from the top and bottom with convection-style cooking while the Rotisserie Spit rotates your chicken or roast. Keeps your food crispy on the outside, juicy on the inside, and evenly cooked. | • Heats from the top and bottom heating elements.  
• Uses the Rotisserie Spit accessory in the Rotisserie slot in Position 3.  
• The Air Frying Fans can be turned off. |
| **Slow Cook** | Cooks food at a low temperature with long cooking times. Cook in a covered vessel (Dutch oven) to keep moisture in. Great for turning toughs cut of meat into tender meals. | • Heats from the top and bottom heating elements.  
• Uses the Oven/Pizza Rack (to support cooking vessels) in Position 6.  
• The Air Frying Fans can be turned on. |
| **Roast** | Cooks larger pieces of meat or poultry evenly on all sides.                                                                                                                                                  | • Heats from the top and bottom heating elements.  
• Uses the Oven/Pizza Rack (to support cooking vessels) and Bake Pan (optional) in Position 5.  
• The Air Frying Fans can be turned on. |
| **Dehydrate** | Cooks food convection style on low heat, allowing many types of food to be preserved. Great for drying fruit, vegetables and meats (beef jerky).                                                               | • Heats from the top heating element.  
• Uses the Crisper Tray in Positions 1, 4, and 5 (additional Crisper Trays can be purchased to use all three positions at once).  
• The Air Frying Fans are always on. |
| **Reheat** | Used to heat prepared meals without searing.                                                                                                                                                               | • Heats from the top and bottom heating elements.  
• Uses the Oven/Pizza Rack in Position 5.  
• The Air Frying Fans can be turned on. |
| **Warm** | Use to hold food at a safe temperature (160° F) for a period of time.                                                                                                                                     | • Heats from the top and bottom heating elements.  
• Uses the Oven/Pizza Rack, Crisper Tray, or Bake Pan (optional) in Position 5.  
• The Air Frying Fans are not used. |
Instructions for Use

Before First Use

1. Read all material, warning stickers, and labels.
2. Remove all packing materials, labels, and stickers.
3. Hand-washing is recommended. Wash all parts and accessories used in the cooking process with warm soapy water.
4. Never wash or submerge the cooking Unit in water. Wipe the inside and outside of the cooking Unit with a clean, moist cloth. Rinse with a warm, moist cloth.
5. Before cooking food, preheat the Unit for a few minutes to allow the manufacturer’s protective coating of oil to burn off. Wipe the Unit with warm, soapy water and a washcloth after this burn-in cycle.

Instructions

1. Place the appliance on a stable, level, horizontal, and heat-resistant surface. Ensure that the Unit is used in an area with good air circulation and away from hot surfaces, other objects or appliances and any combustible materials.
2. Ensure that the Unit is plugged into a power outlet.
3. Select the cooking accessory for your recipe.
4. Place food to be cooked in Unit and close the door.
5. When the power cord is plugged into the outlet, select a new preset mode by rotating the Program Selection Knob to the left or right.
6. After choosing the function you need, you can adjust the temperature by turning the Temperature/Darkness Control Knob (marked "TEMP") and the time by turning the Time/Slices Control Knob (marked "TIME").

**NOTE:** When making toast or bagel, you control the lightness or darkness by adjusting the same knobs.

7. Press the Start/Stop Button to begin cooking cycle.

**NOTE:** When the cooking process is complete and the cooking time has elapsed, the Unit will beep several times.

**CAUTION:** All surfaces inside and outside of the Unit will be extremely hot. To avoid injury, wear oven mitts. Allow at least 30 mins. for the Unit to cool before attempting cleaning or storage.
Instructions for Use

Tips

- Foods that are smaller in size usually require a slightly shorter cooking time than larger ones.
- Large quantities of food only require a slightly longer cooking time than smaller quantities.
- Flipping or turning food halfway through the cooking process ensures that the food is evenly fried.
- Misting a bit of vegetable oil on fresh potatoes is suggested for a crispier result. When adding a little oil, do so just before cooking.
- Snacks normally cooked in an oven can also be cooked in the Power AirFryer Oven 360.
- Use premade dough to prepare filled snacks quickly and easily. Premade dough also requires a shorter cooking time than homemade dough.
- A baking tin or oven dish can be placed on rack inside the Power AirFryer Oven 360 when cooking foods such as cakes or quiches. Using a tin or dish is also recommended when cooking fragile or filled foods.

Adjustable Tray Positions

The Crisper Tray and Pizza Rack can be inserted into any of the four positions between the heat elements in the oven.

**IMPORTANT:** The Drip Tray must be kept below the heat elements in the oven at all times when cooking food.
Cleaning & Storage

Cleaning

Clean the **Power AirFryer Oven 360** after each use. Caked-on food on accessories should be soaked in warm, soapy water for easy removal. Hand-washing is recommended.

Remove the power cord from the wall socket and be certain the appliance is thoroughly cooled before cleaning.

1. Wipe the outside of the appliance with a warm, moist cloth and mild detergent.

2. To clean the oven door, gently scrub both sides with warm, soapy water and a damp cloth. **DO NOT** soak or submerge the Unit in water or wash in the dishwasher.

3. Clean the inside of the appliance with hot water, a mild detergent, and a nonabrasive sponge. Do not scrub the heating coils as they are fragile and may break.

4. If necessary, remove unwanted food residue with a cleaning brush.

Storage

1. Unplug the appliance and let it cool thoroughly.

2. Make sure all components are clean and dry.

3. Place the appliance in a clean, dry place.
Frequently Asked Questions

1. **Does the Unit need time to heat up?**

   The Unit has a smart feature that will preheat the oven to the set temperature before the timer begins counting down. This feature takes effect with all preprogrammed settings except Toast, Bagel, and Dehydrate.

2. **Is it possible to stop the cooking cycle at any time?**

   You can use the Cancel Button to stop the cooking cycle.

3. **Is it possible to shut off the Unit at any time?**

   Yes, the Unit can be shut off at any time by holding down the Cancel Button for 3 secs.

4. **Can I check the food during the cooking process?**

   You can check the cooking process by pressing the Light Button or pressing the Start/Pause Button and then opening the door.

5. **What happens if the Unit still does not work after I have tried all the troubleshooting suggestions?**

   Never attempt home repair. Contact the marketer and follow the procedures set forth by the manual. Failure to do so could render your warranty null and void.
# Troubleshooting

<table>
<thead>
<tr>
<th>Problem</th>
<th>Possible Cause</th>
<th>Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>The <strong>Power AirFryer Oven 360</strong> does not work</td>
<td>1. The appliance is not plugged in.&lt;br&gt;2. You have not turned the Unit on by setting the preparation time and temperature</td>
<td>1. Plug power cord into wall socket.&lt;br&gt;2. Set the temperature and time.</td>
</tr>
<tr>
<td>Food not cooked</td>
<td>1. The Unit is overloaded.&lt;br&gt;2. The temperature is set too low.</td>
<td>1. Use smaller batches for more even cooking.&lt;br&gt;2. Raise temperature and continue cooking.</td>
</tr>
<tr>
<td>Food is not fried evenly</td>
<td>1. Some foods need to be turned during the cooking process.</td>
<td>1. Check halfway through process and turn food if needed.</td>
</tr>
<tr>
<td>White smoke coming from Unit</td>
<td>1. Oil is being used.&lt;br&gt;2. Accessories have excess grease residue from previous cooking.</td>
<td>1. Wipe down to remove excess oil.&lt;br&gt;2. Clean the components and Unit interior after each use.</td>
</tr>
<tr>
<td>French fries are not fried evenly</td>
<td>1. Wrong type of potato being used.&lt;br&gt;2. Potatoes not blanched properly during preparation.&lt;br&gt;3. Too many fries are being cooked at once.</td>
<td>1. Use fresh, firm potatoes.&lt;br&gt;2. Use cut sticks and pat dry to remove excess starch.&lt;br&gt;3. Cook less than 2 1/2 cups of fries at a time.</td>
</tr>
<tr>
<td>Fries are not crispy</td>
<td>1. Raw fries have too much water.</td>
<td>1. Dry potato sticks properly before misting oil. Cut sticks smaller. Add a bit more oil.</td>
</tr>
</tbody>
</table>

⚠️ **Caution**

The **Power AirFryer Oven 360** must be operated with the Drip Tray in place, securely closed and cleaned of excess food.

- **NEVER** operate your **Power AirFryer Oven 360** with the Oven Door open.
- **NEVER** put the Baking Pan (or any other accessory) directly on the top of the lower heating elements.
Manufacturer’s 60-Day Limited Warranty

The manufacturer warrants that all parts and components are free of defects in materials and workmanship for 60 days. This warranty is valid only in accordance with the conditions set forth below:

1. The warranty extends only to the original consumer purchaser and is not transferable. In addition, proof of purchase must be provided for the 60-day warranty to be applicable.

2. This limited warranty is the only written or express warranty given by the manufacturer. Any implied warranty of merchantability or fitness for a particular purpose on this product is limited to the duration of this warranty. Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you.

3. This warranty gives you specific legal rights, and you may also have other rights which may vary from state to state.

Procedure for Return within 60 Days:

To return the product within the 60-day money-back guarantee period, the original purchaser must package the product securely and include the following information: name, address, reason for return and request for refund or replacement, and either proof of purchase or order number. Place the information inside an envelope inside the package with the Unit and mail to the following address:

Tristar Products, Inc.
500 Returns Road
Wallingford, CT 06495
