

LEG PILLOW

Instructions for Use

Using One Pillow

Place the leg pillow between your legs with the thicker cushioning on your knees. The pillow should feel natural between your legs and hug your thighs comfortably. The brand-new shape hugs your thighs and provides more comfort.

Using Two Pillows at Once

Place the first leg pillow between your thighs with the thicker cushioning on your knees. Then, place the second pillow between your calves with the thicker cushioning facing your knees. The second pillow can be adjusted to a position that best suits your comfort.

Break-In Period

The Contour Legacy Leg Pillow is made from a high-resiliency memory foam. The foam requires 2–3 days of use to break in and contour to your body.

New Foam Smell

The Contour Legacy Leg Pillow is made from all-new materials and, like a new car, will have a new product smell. Some are more sensitive to this smell than others. You may reduce this smell by removing your pillow from the packaging and letting the pillow air out before use.

Foam Discoloration

Exposure to fresh air and different lighting might cause the foam to change colors. This is normal.

Cleaning

Remove the pillow cover by unzipping it and removing the cover from the foam. Wash the cover on a gentle cycle and then air dry only. Hand washing preferred for best results.

TO CLEAN COVER:

**MACHINE WASH COLD
ONLY NON-CHLORINE BLEACH WHEN NEEDED
AIR DRY ONLY
DO NOT IRON
FOAM: SPOT CLEAN ONLY**
