

BLU BREEZE™

Owner's Manual

Save These Instructions - For Household Use Only

Warranty Information Inside

When using electrical appliances, basic safety precautions should always be followed. Do not use the **Blu Breeze™** until you have read this manual thoroughly.

Personal, Portable, Cool Comfort

Before You Begin

It is very important that you read this entire manual, making certain that you are totally familiar with the Unit's operation and precautions.

At last, you can take control of your personal space with the **Blu Breeze** Personal Space Air Cooler.

Using evaporative air cooling technology this small unit will lower the temperature of your immediate surrounding environment. Simply fill the tank with cool water and small ice cubes, set the fan speed, and **Blu Breeze** will do the rest. Use it near your work or exercise space or set it on your nightstand for all-night comfort.

The **Blu Breeze** Personal Space Air Cooler will provide you many years of personal environmental comfort, but before you begin, it is very important that you read this entire manual, making certain that you are totally familiar with its operation and precautions.

IMPORTANT SAFEGUARDS

When using electrical appliances, basic safety precautions should always be followed, including:

- Follow all instructions carefully.
- This appliance is not intended for use by persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge unless they are under the supervision of a responsible person or have been given proper instruction in using the appliance. This appliance is not intended for use by children.
- To protect against electric shock, do not immerse or rinse cords or plugs in water or other liquids.
- Unplug from outlet when not in use and before cleaning.
- **DO NOT** operate any appliance with a damaged cord or plug. If the appliance has malfunctioned or has been damaged in any manner, contact customer service.
- **DO NOT** use any attachments that were not recommended or supplied by the manufacturer. The use of attachments not recommended for use by the manufacturer may cause serious hazardous situations, including personal injury.
- **DO NOT** use appliance for anything other than its intended use.
- Always place the Unit on a flat, firm surface. It is recommend to put a waterproof mat beneath the Unit.
- Always unplug the Unit when not in use.
- Always operate Unit at least 6 in. away from walls and several feet from stoves, radiators, or heaters.
- To prevent a possible fire, **DO NOT** block air inflow or outflow vents.
- **DO NOT** operate the Unit without water.
- Never touch the fan when the Unit is on.
- **CAUTION:** Unsecure object may cause distraction and injury. **DO NOT** use in moving vehicles.
- **DO NOT** reach for a Unit that has fallen into water. Unplug it immediately.
- **DO NOT** use warm or hot water.
- **NEVER** drop or insert any object into any opening.
- **DO NOT** operate where aerosol (spray) products are being used or where oxygen is being administered.

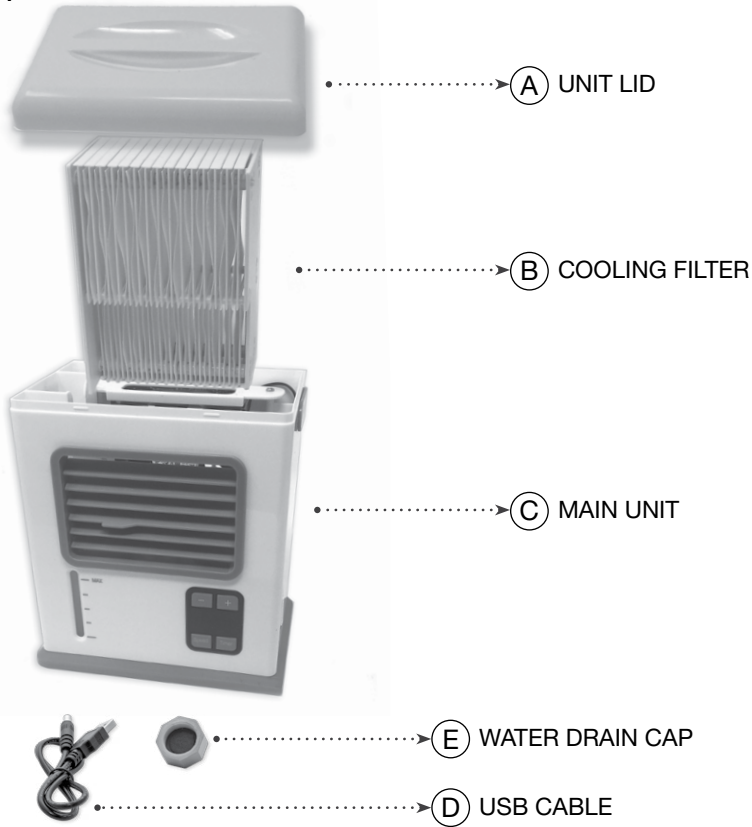

IMPORTANT SAFEGUARDS

- **DO NOT** move or fill the Unit while it is in operation. Shut off and remove plug from outlet before moving or filling.
- Make sure that your hands are dry when operating the controls or removing the plug.
- **CAUTION:** All servicing of this Unit must be performed by authorized service personnel only.
- Never cover the Unit while it is operating.
- Always keep the cord away from high temperature and fire.
- Perform regular maintenance and cleaning of the Unit's water reservoir and cooling filter.
- Never use detergent to clean the cooling media.
- Stop using this Unit if there is an unusual noise or smell.
- **DO NOT** touch the water or any parts of the Unit that are covered by water while the Unit is on or plugged in.
- Never add any additive to the water.

SAVE THESE INSTRUCTIONS - FOR HOUSEHOLD USE ONLY.

Parts & Accessories

FIG. 1

IMPORTANT: Your **Blu Breeze** Personal Space Air Cooler has been shipped with the components shown above. Check everything carefully before use. If any part is missing or damaged, do not use this product and contact shipper using the customer service number located on the back cover of the owner's manual.

USING BATTERIES*: this Unit can operate with four AA batteries (not Included). Battery Compartment located on back of Unit (Fig. 3). When using batteries, make sure Unit is unplugged. Remove batteries when using USB Cable. ***DO NOT** mix old and new batteries. **DO NOT** mix alkaline, standard, or rechargeable batteries.

Operating Instructions

FIG. 2

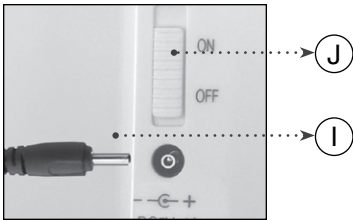

FIG. 3

FIG. 4

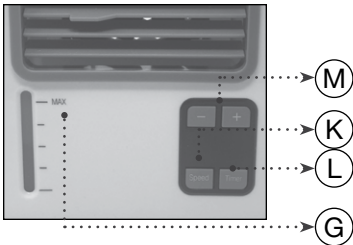

FIG. 5

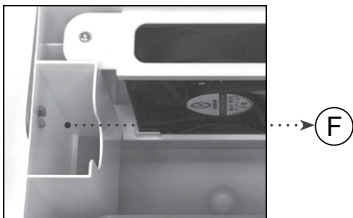

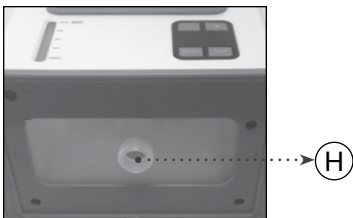

FIG. 6

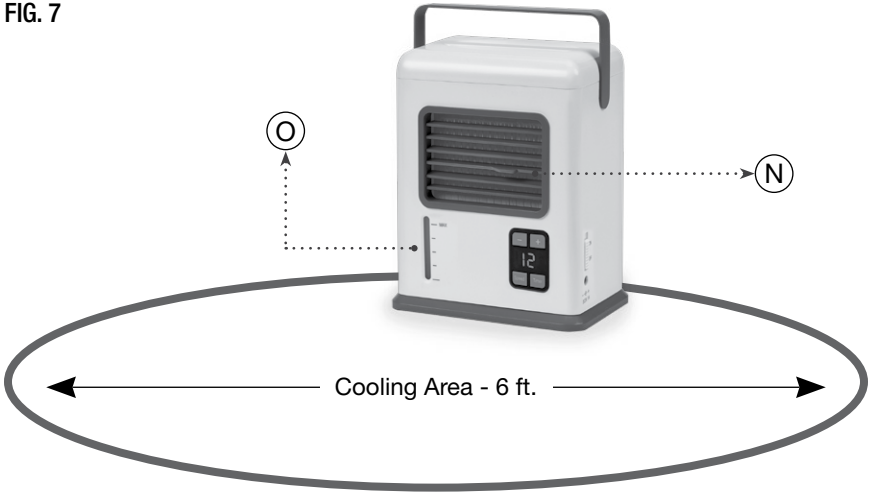

The Unit should be set up to operate as shown in Fig. 1 using the following procedure:

1. Place the Unit on a flat, water-resistant surface within your personal space.
 2. Insert Cooling Filter (B) into Unit.
 3. Using the Water Fill Slot (F), add small ice cubes. Then carefully pour cold water into the slot. DO NOT exceed MAX water level (G).
Note: Make sure the Water Drain Cap is securely in place (H). Never use fragrance additives or oils. Place Lid on Unit (A).
 4. Insert Power Jack (I) into Unit as shown.
 5. Plug USB Cable into USB Port. See Battery instructions on page 6. Unit will begin to run on Low Fan Speed (LL).
 6. To increase Fan Speed, press Speed Button (L) twice; LED will read "HH."
 7. Using the Timer option: Select Timer Button (M) and then select the Plus or Minus Buttons (N). Timer can be set to 1–12 hrs. Unit will shut off when time has elapsed. Unit will run continuously if no time is selected.
- CAUTION: DO NOT** cover Air Intake (Fig. 3) while Unit is operating.

Tips

FIG. 7

- For maximum cool comfort, you should be positioned within area as shown in Fig. 7 with the Unit facing you on High Fan Speed.
- **AIR DIRECTION:** You can direct the air flow up or down by adjusting the Air Louvers (N) on the face of the Unit.
- **WATER LEVEL:** When using the Unit for extended periods, evaporation will occur. Always check the water level (O).

Care & Cleaning

1. First, remove batteries or unplug USB Cable and remove Power Jack from Unit.
2. Remove Lid and Cooling Filter. Place Cooling Filter on paper towels.
3. Carefully lift Unit, hold over sink, and unscrew Water Drain Cap. Allow water to drain from bottom. Never turn Unit upside down to empty. Water could affect electrical components, causing damage or shock hazard.
4. After each use, rinse Cooling Filter with cool tap water to clean. Place on paper towels and allow to dry thoroughly before storage. Never submerge the Unit in water or any other liquid. To clean, simply wipe the exterior with a damp cloth and mild detergent if needed.
5. Reassemble Unit and store with other appliances.

Manufacturer's 60-Day Limited Warranty

The manufacturer warrants that all parts and components are free of defects in materials and workmanship for 60 days. This warranty is valid only in accordance with the conditions set forth below:

1. The warranty extends only to the original consumer purchaser and is not transferable.
In addition, proof of purchase must be demonstrated.
2. This limited warranty is the only written or express warranty given by the manufacturer. Any implied warranty of merchantability or fitness for a particular purpose on this product is limited in duration to the duration of this warranty. Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you.
3. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

Procedure for Replacement or Return within the 60 Days:

To return the product for replacement or refund within the 60 days, the original purchaser must pack the product securely and send it postage paid with a description of the reason for replacement or refund, proof of purchase, and your order number on the package to the following address:

Tristar Products, Inc.
